**Las Vegas High School Installs Fast Alert® For Incident Warning and
Management**

PORT ANGELES, WA—February, 2008—Incident Alert Systems (IAS) of Port Angeles, Washington announces the installation of its Fast Alert® incident management and security system at Las Vegas' Valley High School – one of over 300 schools in the Clark County School District, the 5th largest school district in the US. Patent protected Fast Alert® is a computer-enabled, incident warning and management system designed by IAS specifically for direct and immediate communication between teachers, staff and first responders during emergency situations.

Ron Montoya, Principal of Valley High School stated, "The Fast Alert system is a vital component of our comprehensive safety program. This installation serves as an evaluation and test sight and will determine the future installation of Fast Alert® throughout the entire school district."

Fast Alert® provides immediate warning of imminent or in-progress life threatening events via a secure computer network throughout any number of remote, related sites and proprietary software makes available a menu of alert options, including lockdown, evacuation, shelter-in-place and all-clear alarms.

The Fast Alert® warning system can be installed in several configurations, the most common being integration with an existing intercom system with a connection to the data network. In cases where there is no access to an existing or compatible intercom

system, the Fast Alert® warning system can be installed with the addition of amplified speakers to cover the site. By utilizing Infrastructures already in place, the Fast Alert® system can be introduced as a retrofit upgrade at a very low cost. It can be activated by cell phone, PDA, tablet computer, laptop or desktop computer, and supports many wireless platforms.

About Incident Alert Systems

Founded in 2004, Incident Alert Systems strives for the goal of preserving human life and providing a safe and healthy learning environment for children and educators. IAS works closely with agencies such as the Washington State School Safety Advisory Committee and the Washington Association of Sheriffs and Police Chief's to ensure that all products meet the needs of those professionals who would be directly responsible for managing critical incidents. For more information about IAS and Fast Alert®, please call (360) 452-4502 or visit the web site at www.iasglobal.org
