**Washington States' South Kitsap High School Chooses Fast Alert®
Incident Management And Security System To Enhance Safety Of
Students And Teachers**

PORT ANGELES, WA—October, 2008—Incident Alert Systems (IAS) of Port Angeles, Washington announces the selection of its Fast Alert® incident management and security system by the South Kitsap High School located in Port Orchard, Washington. A member of the South Kitsap School District, South Kitsap High enrolls approximately 2,500 students in grades 10, 11 and 12. Teachers, support staff, school police services and community organizations within the South Kitsap School District currently work together to prevent, prepare and respond to any emergency situations that may occur. Fast Alert® incident management and security system will further enhance student safety, which is the district's top priority.

“We are excited to support the South Kitsap School District in their proactive efforts to ensure the safety of their students, teachers and staff with Fast Alert®, which was designed to be a comprehensive and reliable notification solution to critical incident communication requirements,” said Tom Reyes, President of Incident Alert Systems.

Patent protected Fast Alert® is a bi-lingual, computer-enabled, incident warning and management system with mobile, all-platform, management capability, which empowers those charged with managing an emergency to quickly and accurately sound the appropriate alert in one or more languages as needed. Fast Alert® is designed to leverage existing data networks and integrate with existing intercom systems or added amplified speakers. The system can be activated by cell phone, PDA, tablet computer, laptop or desktop computer for direct and immediate communication between teachers, staff and first responders during emergency situations, providing warning of imminent or in-progress life threatening events.

About Incident Alert Systems

Founded in 2004, Incident Alert Systems strives for the goal of preserving human life and providing a safe and healthy learning environment for children and educators. IAS works closely with agencies such as the Washington State School Safety Advisory Committee and the Washington Association of Sheriffs and Police Chief's to ensure that all products meet the needs of those professionals who would be directly responsible for managing critical incidents. For more information about IAS and Fast Alert®, please call (360) 452-4502 or visit the web site at www.iasglobal.org
