**Fast Alert® For Incident Warning and Management Again Selected By
Yakima School District**

PORT ANGELES, WA—August, 2008—Incident Alert Systems (IAS) of Port Angeles, Washington announces the second installation of its Fast Alert® incident management and security system by the Yakima School District of Washington State at its Eisenhower High School. Yakima School District of Yakima County Washington is the 18th largest school district in Washington State and the 2nd largest in Eastern Washington. Eisenhower High School enrolls 1,895 students in grades 9 through 12.

"We are pleased that the Yakima School District has found Fast Alert® to be such a valuable safety and security tool, that they are now installing it in other schools within the school district. Eisenhower High School is the first school to receive new, customized software from IAS allowing access to prerecorded messages, which are non-emergency in nature. As with the traditional emergency alert notifications, these messages will be available in both English and Spanish."

Fast Alert® is a computer-enabled, incident warning and management system designed by IAS for direct and immediate communication between teachers, staff and first responders during emergency situations, providing warning of imminent or in-progress life threatening events via a secure computer network throughout any number of remote, related sites. This innovative system has been awarded a US patent and International patents are pending.

Fast Alert® warning system can be installed in many configurations at a very low cost, leveraging existing data networks and integrating with existing intercom systems or added amplified speakers. It can be activated by cell phone, PDA, tablet computer, laptop or desktop computer.

About Incident Alert Systems

Founded in 2004, Incident Alert Systems strives for the goal of preserving human life and providing a safe and healthy learning environment for children

and educators. IAS works closely with agencies such as the Washington State School Safety Advisory Committee and the Washington Association of Sheriffs and Police Chiefs to ensure that all products meet the needs of those professionals who would be directly responsible for managing critical incidents. For more information about IAS and Fast Alert®, please call (360) 452-4502 or visit the web site at www.iasglobal.org
