**Fast Alert® For Incident Warning and Management Selected By Yakima
School District**

PORT ANGELES, WA—June, 2008—Incident Alert Systems (IAS) of Port Angeles, Washington announces the installation of its Fast Alert® incident management and security system at Discovery Lab School, a small elementary and middle school in the Yakima School District of Yakima County Washington - the 18th largest school district in Washington State and the 2nd largest in Eastern Washington, with an approximate 210 first through eighth grade student enrollment.

Randy Town, School Safety Coordinator for Educational Service District 105 makes this statement about the new system, “During a lockdown or evacuation the Fast Alert system removes the human element from a crisis situation. Fast Alert® provides a calm, even and consistent message for a procedural response to an emergency situation, allowing the person that would normally make the announcement over the intercom the opportunity to perform other critical functions during an emergency.”

Fast Alert® is a computer-enabled, incident warning and management system designed by IAS for direct and immediate communication between teachers, staff and first responders during emergency situations, providing warning of imminent or in-progress life threatening events via a secure computer network throughout any number of remote, related sites. This innovative system has been awarded a US patent and International patents are pending.

Fast Alert® warning system can be installed in many configurations at a very low cost, leveraging existing data networks and integrating with existing intercom systems or added amplified speakers. It can be activated by cell phone, PDA, tablet computer, laptop or desktop computer.

About Incident Alert Systems

Founded in 2004, Incident Alert Systems strives for the goal of preserving human life and providing a safe and healthy learning environment for children

and educators. IAS works closely with agencies such as the Washington State School Safety Advisory Committee and the Washington Association of Sheriffs and Police Chiefs to ensure that all products meet the needs of those professionals who would be directly responsible for managing critical incidents. For more information about IAS and Fast Alert®, please call (360) 452-4502 or visit the web site at www.iasglobal.org
